

# Turbo ULV

portable pneumatic  
cold fogging unit

Optional adjustable nozzle

- Standard accessories:**
- Shoulder strap
  - Solution funnel
  - Double air filter
  - Dosing nozzle size 7, 8, 10
  - sealing rings

- Optional accessories:**
- Adjustable nozzle
  - 15 m power cable
  - Storage box

### Technical Data:

Packing dimensions (length x breadth x height):	59 x 35 x 37 cm
Weight :	6,6 kg net, 8,3 kg gross
Capacity of solution tank :	nominal 5 Liter
Power supply:	<b>230 V AC / 50-60 Hz or 110 V AC / 50-60 Hz</b>
Electrical power rating:	1,2 kW
Effective fog throwing range:	Up to 25 m
Droplet size dependent on nozzle size used:	10 to 100 µm
Flow rate:	Up to 48 L/h (800 ml/min)

The **Turbo ULV** is a portable AC powered pneumatic cold fogger. Its high performance turbine creates a powerful air stream of up to 50 l/s. The active solution is atomised into a fine aerosol, which is adjustable from approx. 10 to 100 µm depending on the flow rate setting. The precise flow regulation is provided by means of interchangeable nozzles. Chemical resistant materials assure long life and high performance for professional fogging jobs.

### Main features:

- Trouble free and simple operation.
- High mobility due to small dimensions, low weight and extended fogging tube.
- Detachable solution tank for easy filling and cleaning.
- Allows space spray and/or residual applications.
- High efficiency air filter protects the motor and internal components.
- Sturdy construction for professional use.
